Sir:

First, let me thank you for giving me Penn Jones's address so I could obtain the Zapruder film. I am interested in obtaining some copies of documents you might have to disprove the Warren Report. Example: Secret Service Report 767 which refers to Allan Sweatt Chief of the criminal dursion in Dallas which makes reference to an FBI number for Oswald 5179 & that refers to another document of a CIA number for Oswald I would like to purchase from you as many different types of documents on J.F.K.'s murder as possible. (I would appreciate it.) Can you also give me a address & a name, to whom I can write to, to obtain the Nix & Muchmore films?

Mr. Weisberg do you have any first hand knowledge of an real attempt to reopen the J.F.K. assassination? I watched a show last Tuesday in which Ralph Sloneman was documenting some evidence to the Rockefeller Commission. Jack Ruby was an undercover agent for the Dallas Police, was gun running to Castro. E Howard Hunt was station chief in Mexico City when Oswald allegedly was there. He and others were running the dummy front ~~Fair Play~~ For Cuba Committee. He was allegedly seen in Dallas on 11/22/63. The man responsible for the Bay of Pigs Operation a man named Cavell or Cabell. His brother was mayor of Dallas the day of the motorcade, I think if Congress would question E. Howard Hunt & Frank Sturgess we might learn alot. In case you already know all the above information sorry. Please let me know on the documents & on the Mix & Muchmore films.

Thank you!
